

Modular LED signal tower light with built-in terminal

MTG50/ MTC50/ MTR50 Series

Thank you for purchasing Qlight's products. Please read this user manual carefully prior to installation and operation to ensure safe and correct use.

⚠ Precautions for Safety

Failure to follow the instructions below may cause a loss of life or serious physical injury.

1. During wiring or maintenance, please completely turn off the power of the product. (Failure to follow this may lead to an electric shock.)
2. Do not install the product in locations that subjects it to excessive dust or water other than the conditions designated by the IP protection ratings indicated for each product. (Failure to follow these instructions may cause a fire to the product, electric shock, physical injury, malfunction or damage to the product.)
3. Do not alter or repair this product. If maintenance or repair service is required, please contact your local Qlight contact point. (Failure to follow these instructions may lead to fire, electric shock, or product damage.)
4. Please apply the correct voltage to the product. (Failure to follow these instructions may lead to fire, electric shock, or product damage.)
5. When the product is applied to a condition that may impact lives or property, please make sure to have a double safety device. (Failure to follow this may cause damage to property, fire, electric shock and loss of life.)

⚠ Precautions for Correct Use

Failure to follow the proper instructions may cause damage to property, the product, or malfunction of the product that would void the warranty.

1. Please remove any objects that can interrupt ventilation around the product.
2. Please turn off the power of the product immediately if it fails to operate properly.
3. Carefully wire the product according to each product's specification.
4. Please be careful in preventing chemicals such as thinner, benzene, etc. in contact with the surface of the product.
5. Do not apply excessive force/impact to the product.
6. Failure to follow any of the instructions above may cause malfunction or damage to the product, fire, and electric shock.

How to configure module

• Model No/ Shape

• Assembly step

Assembly Step 1

- Choose from cover, buzzer module, and cover lens integrated module
- Please refer to detailed module specification in order to find out model number

Assembly Step 2

- Select among MTG, MTC, MTR LED module
- When the buzzer module is selected in the first stage of module assembly, only 4 levels of R/A/G/B colors can be used for the LED module (W color cannot be used)
- If the operating voltage is AC type, the LED module uses DC24V type.
- When selecting MTR LED module, please choose black base module
- Please refer to detailed module specification in order to find out model number

Assembly Step 3

- Please select among direct mount, Pole mount, and M12-connector type base module
- M12 cable connector will only apply for DC24 module
- Please refer to detailed module specification in order to find out model number

Assembly Step 4

- In case of using Pole type based module at the Assembly Step 3, you should select a Pole. The Pole can be provided with diverse length.
- Please refer to detailed module specification in order to find out model number

Assembly Step 5

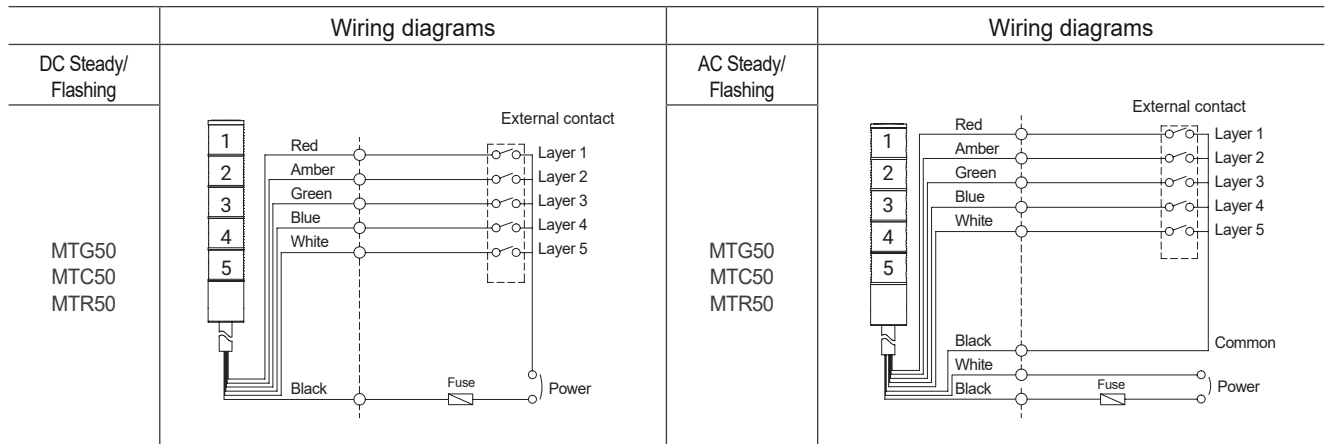

- Please select appropriate mounting bracket in accordance with your needs
- Please refer to detailed module specification in order to find out model number

Wiring Instructions

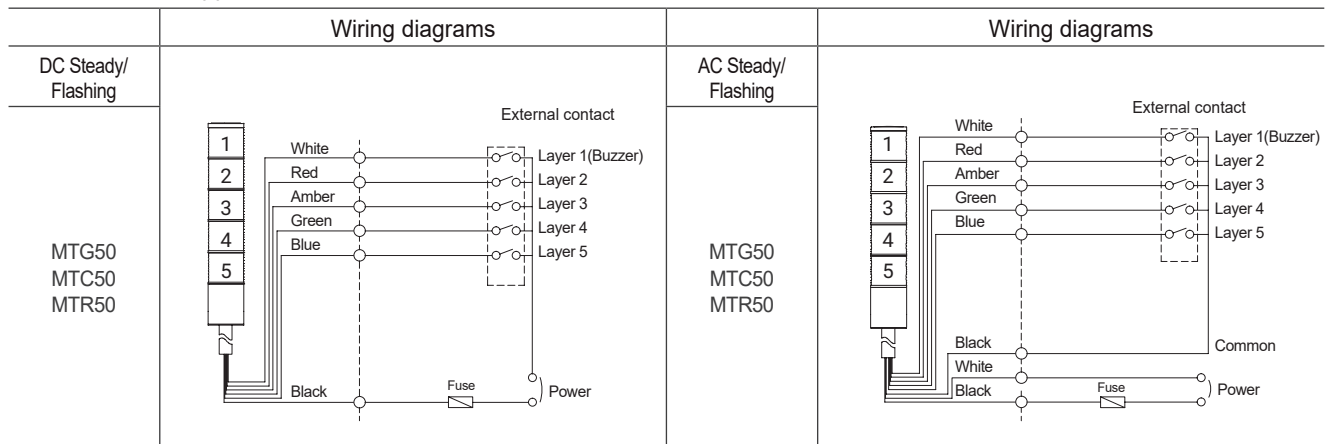

■ Wiring using external contact

- In case of wiring with external contacts, refer to the wiring diagrams below according to your product's type and voltage setting.

- In case of buzzer NOT applied

- In case of buzzer applied

■ Recommended signal line information

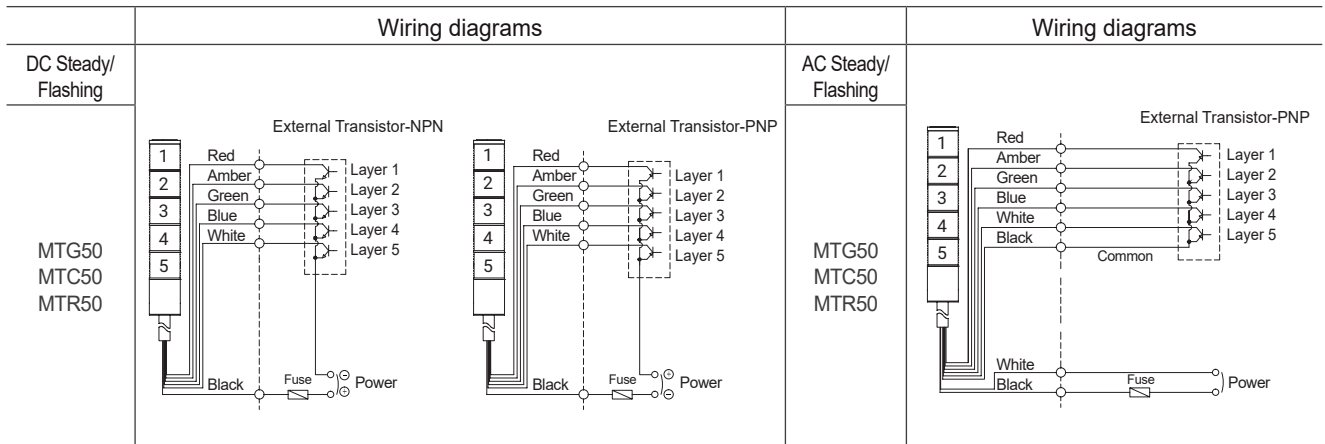

- External power line - UL1015 AWG18(0.75sq) × 2C 400mm,
- External signal line - UL1007 AWG22(0.3sq) 400mm
- LED light source tower lamp can be connected using external contacts and transistors

Wiring Instructions

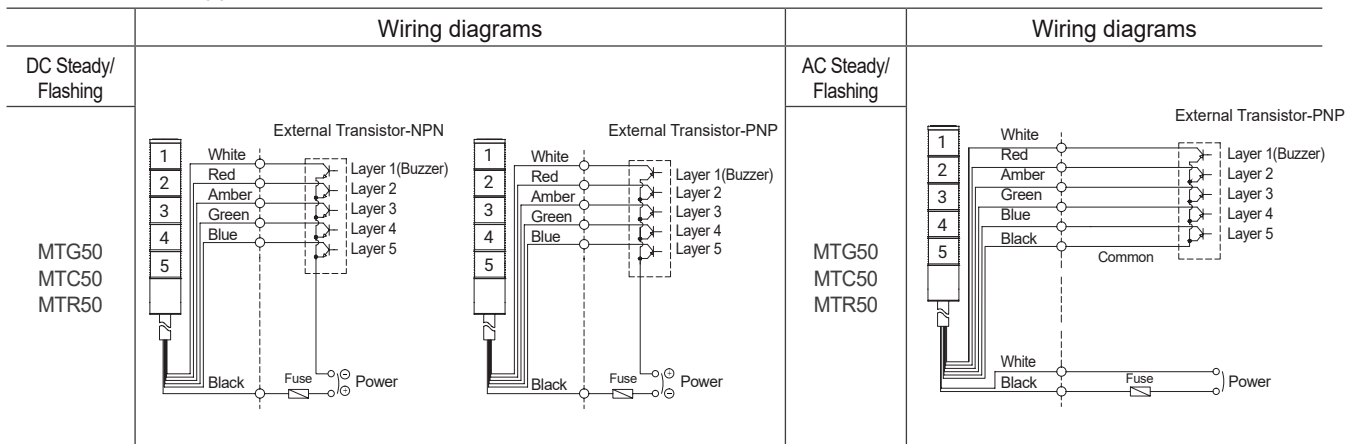

■ Wiring using transistor

- When using a transistor, please choose between the NPN or PNP type transistor which best matches the voltage and product type, then connect them correctly according to the wiring diagrams below.

- In case of buzzer NOT applied

- In case of buzzer applied

■ Recommended signal line information

- External power line - UL1015 AWG18(0.75sq) × 2C 400mm,
- External signal line - UL1007 AWG22(0.3sq) 400mm
- LED light source tower lamp can be connected using external contacts and transistors

Wiring Instructions

■ Wiring diagrams(In case of M12 connector type model)

- M12 connector module can be supplied DC type only. (It same goes for External contact/Transistor contact)
- Please wire the product by referring below PIN-MAP.

Example of MTG50 module configuration

- You can assemble the product through module combination by referring to the diagram below.
- When a buzzer module (high volume buzzer module/waterproof buzzer module) is combined, only 4 LED modules can be assembled (W color module cannot be assembled).

How to Change Lens Kit

• Disassembling lens kits

- ① Twist the upper lens kit in a counter-wise direction so the "I" mark from both kits align.
- ② Disassemble by removing the upper lens kit from the lower one.

※ Cautions

Lens modules are connected through cone-shaped contact point. In case the contact point is damaged, it may cause a contact failure.

• Assembling lens kits

- ① Put the two lens kits together by aligning the upper lens' "I" mark and the lower lens' "I" mark together.
- ② Lock the two kits by twisting the upper lens kit in a counter-wise direction so the upper lens' "◁" mark aligns with the lower lens' "I" mark.

Mounting Hole Specifications

■ MTG50 Self stand base module DC/ Self stand base module AC

- ① Machine holes on the mounting surface referring to the diagram below.
- ② Remove the flange nuts from bolts and place the product through the mounting surface holes.
- ③ Fasten the flange nuts on the opposite side of the mounting surface until the product is tightened securely.

Installation Environment and Protection Rating

- This product is designed for indoor use with protection rating of Non-Waterproof(High-volume buzzer type)/ IP65(Waterproof buzzer type).
- If the product is installed in locations that subject it to excessive dust or water other than the designated IP protection rating indicated(IP65), it may cause malfunction or damage to the product.
- For further information, please visit our website(www.qlight.com).

Mounting Accessories (Sold Separately)

- Please refer to the dimensions below for installation of mounting brackets.

Product installation direction

- Install the product in accordance with the manual. Otherwise rainwater or moisture may penetrate into the product.

· BEACON/SIGNALING LIGHT

※ For products with a protection rating of less than IPX4, please install it vertically.

Power cord inlet part shall not be facing the sky.

· ELECTRONIC SOUNDER/SIGNAL HORN

Sounder part shall not be facing the sky.

· HEAVY-DUTY & EXPLOSION PROOF SIGNALINGS

Sounder part shall not be facing the sky.

· SIGNAL TOWER LIGHTS

※ For products with a protection rating of less than IPX4, please install it vertically.

Power cord inlet part shall not be facing the sky.

For your safety

Specification and dimensions listed in this catalogue subject to change without notice for product quality improvement.
The newest product information is available on our website.(www.qlight.com)
Please read the instruction manual attached to the product carefully before installation and use.
