

Explosion proof Emergency LED Light

QLEX-SLM-650-EMG

Thank you for purchasing Qlight's products. Please read this user manual carefully prior to installation and operation to ensure safe and correct use.

Safety Precautions for Explosion Proof Products

Please follow the instruction below to ensure safe and correct use of explosion proof products.

1. Explosion proof products should be managed according to explosion-proof regulations. Do not disassemble, assemble, alter or repair the product arbitrarily.
2. The temperature rating of the product is the temperature the product will experience at the applied rated voltage and ambient temperature indicated.
3. Use cable glands that satisfy the product's explosion proof grade and temperature grade.
4. Before installing the product, please make sure all cautions indicated on the labels, packaging, and operation manual of the product are fully understood.
5. Installation, maintenance and repair of the product must be performed by experts in the explosion proof field, or persons who have received relevant training.
6. For safety, the product should be installed and operated in environments that avoid high temperature and high pressure.
7. Please follow general safety precautions and avoid installing the product in locations that may generate excessive heat.
8. When installing the product in places where chemicals are located, please make sure that the environment does not have two or more incompatible chemicals mixed. For safety, please read the instruction manual carefully and be mindful of the chemical compositions where the product is used.
9. Please be careful of static electricity during product installation.
Please eliminate static electricity by using static eliminator or handle the product with anti-static globes.
10. Default condition of emergency backup battery switch is OFF("1") position. Please turn it ON and use the product when the product is being wired.
11. In case of product abnormality, do not disassemble and contact our CS department.
When installing the product for the first time, do not disassemble the product arbitrarily except for disassembling and assembling the terminal block cover for wiring the power line.

Precaution for Safety

Failure to follow the instructions below may cause a loss of life or serious physical injury.

1. During wiring or maintenance, please completely turn off the power of the product. (Failure to follow this may lead to an electric shock.)
2. Do not install the product in locations that subjects it to excessive dust or water other than the conditions designated by the IP protection ratings indicated for each product. (Failure to follow these instructions may cause a fire to the product, electric shock, physical injury, malfunction or damage to the product.)
3. Do not alter or repair this product. If maintenance or repair service is required, please contact your local Qlight contact point.
(Failure to follow these instructions may lead to fire, electric shock, or product damage.)
- When the battery needs to be replaced, please contact our CS department.
4. Please apply the correct voltage to the product. (Failure to follow these instructions may lead to fire, electric shock, or product damage.)
5. When the product is applied to a condition that may impact lives or property, please make sure to have a double safety device.
(Failure to follow this may cause damage to property, fire, electric shock and loss of life.)

Failure to follow the proper instructions may cause damage to property, the product, or malfunction of the product that would void the warranty.

1. Please remove any objects that can interrupt ventilation around the product.
2. Please turn off the power of the product immediately if it fails to operate properly.
3. Carefully wire the product according to each product's specification.
4. Due to the nature of the product's surface, static electricity may be generated when it comes into contact with other objects. Use a damp cloth or anti-static material to remove foreign substances on the outside of the product.
5. Do not apply excessive force/impact to the product.
6. Failure to follow any of the instructions above may cause malfunction or damage to the product, fire, and electric shock.

Ordering Specifications

QLEX-SLM	-	650-EMG	-	110/230
[Model number]		[Length]		[Voltage]
I		I		I
• QLEX-SLM		• 650-650mm		• 110/230-AC110V-230V

Product Specifications

Explosion Proof Specifications

Model number	QLEX-SLM-650-EMG
Range for operating voltage	AC110V/230V
Ex mark	KCs - Ex d IIC T6
Ambient operating temperature	-20°C ≤ Tamb ≤ +60°C
Explosion proof Zone	Zone1, Zone2
Protection rating	IP66

Zone definitions(Gas)	Zone 1	High risk gas/vapour
	Zone 2	Medium risk gas/vapour
Group definitions(Gas)	GROUP II A	Acetone, Petrol, Methanol, Propane, Toluene
	GROUP II B	Ethylene, City gas
	GROUP II C	Hydrogen, Acetylene, Carbon sulphide
Maximum surface temperature of electrical equipment	T1	450°C
	T2	300°C
	T3	200°C
	T4	135°C
	T5	100°C
	T6	85°C
Zone definitions(Dust)	Zone 21	High risk powder/dust
	Zone 22	Medium risk powder/dust
Group definitions(Dust)	GROUP III A	Ignitable fibers/flyings(more than 0.5mm)
	GROUP III B	Non-conductive dusts
	GROUP III C	Conductive dusts

Optics Specifications/ General Product Specification

Optics Specifications	
Model number	QLEX-SLM-650-EMG
Lens color	Translucent
Light color (Standard)	Cooldaylight
Color temperature (Standard)	6,000-7,000K
Luminous flux	1,800lm
Illumination(at 1m)	700Lux
General Product Specification	
Model number	QLEX-SLM-650-EMG
Rated voltage	AC110V-230V
Range for operation voltage	AC100V-240V
Power consumption	Max.33W
Insulation resistance	Min. 100MΩ(500V DC mega ohm meter)
Withstanding voltage	AC: 1,500VAC, 60Hz, 1 minute
Protection rating	IP66
Materials	Housing-AI, Upper cover-AI, Side cover-AI, Lens-PC, Bracket-AI, STS
Certificate	
Weight(approx.)	4.50Kg

QLEX-SLM-650-EMG

Grounding Instructions

- Please use the M4 bolt to ground the product.
- When connecting the grounding cable, please use a ring terminal (Inner diameter Ø5.2).
- Please use a grounding cable with a diameter greater than 4mm.

Terminal Box Wiring Instructions/ Terminal Box Wiring Diagram

■ Terminal Box Wiring Instructions

■ Terminal Box Wiring Diagram

- Terminal block is located inside of the product. Loosen the terminal block cover and disassemble the cover.
- Please apply fork (U-type) or ring (O-type) locking spade terminal at naked tip of the wire for secure connection.
- This product features battery power ON/OFF switch equipped to prevent discharge of emergency battery.
- After wiring the product, make it in the OFF"1" position as shown in the upper left figure before using.

Parts Definition/ Installation

■ Parts Definition

■ Installation

- First, machine holes on the mounting surface ①.
 - The mounting hole of this product is 8mm in diameter.
 - When machining taps, fasten the bolt through the mounting hole of the product.
 - When machining holes, insert the bolt through the hole of the product, and tighten the nut from the opposite side of the mounting surface.
 - Turn the fixture ring ③ in the loosening direction ⑥.
 - Grab the lighting part ④ and turn rotating arrow in both directions ⑤ to set the place where you want to illuminate.
 - Fix the fixture ring ③ in the direction of ⑦.
- * Caution : Do not continuously rotate the lighting part ④ in one direction. It may cause disconnection of wiring on the lighting part.

Installation Environment and Protection Rating

- This product is designed to be explosion proof.
- Please make sure to use the product in an environment that meets the specified explosion proof rating and regulations.
- For further information, please visit our website (www.qlight.com).

Product installation direction

- Install the product in accordance with the manual. Otherwise rainwater or moisture may penetrate into the product.

· BEACON/SIGNALING LIGHT

※ For products with a protection rating of less than IPX4, please install it vertically.

Power cord inlet part shall not be facing the sky.

· ELECTRONIC SOUNDER/SIGNAL HORN

Sounder part shall not be facing the sky.

· HEAVY-DUTY & EXPLOSION PROOF SIGNALINGS

Sounder part shall not be facing the sky.

· SIGNAL TOWER LIGHTS

※ For products with a protection rating of less than IPX4, please install it vertically.

Power cord inlet part shall not be facing the sky.

For your safety
